

## NEGRO VOTERS FLAY STEPHENS

**Resentment Strong Over His Dyer Bill Predictions**

**Eight Janitors Cited as His Interest in Race**

**Strong Indorsement Made for Richardson**

Predicting the nomination of Friend W. Richardson as the Republican candidate for Governor and voicing the keen resentment felt by negro citizens of California for the way they have experienced from Gov. Stephens, Charles Oliver contributes the following comment on the Governor to "The Lighthouse" column of The Western Dispatch of Los Angeles:

"Friend W. Richardson is about to be chosen as the standard-bearer of the Republican party for Governor in the coming Fall election one last frantic appeal has been made from the non-commissioned officers in the ranks of Gov. W. D. Stephens. The 40,000 colored voters long since abandoned any hope of Gov. Stephens, they are positive. His Excellency will do nothing for them except tell them his famous story of the newlyweds, the cake and the little dogie."

Gov. Stephens was asked to join the N. A. C. P. and he refused to do so. There are thirty-five governors who belong to the N. A. C. P. and many very many men of the first magnitude in American life. Gov. Stephens has failed to sign the manhood petition that was presented to the President of the Senate requesting favorable action on the Dyer Bill. He refused to sign the petition and went a step farther. He predicted that it would fail of passage.

"Well, then, it now appears you need my help," said Shelyock in the "Venice Merchant." We have before us a circular letter entitled: "WHAT HAS BEEN DONE FOR THE COLORED PEOPLE." The title would be fine if "has" was inserted between the "WHAT" and "GOVERNOR." It would then read: "WHAT HAS GOV. STEPHENS DONE FOR THE COLORED PEOPLE?" Answer: Nothing! And that's (ain't) all!"

**CIRCULAR LETTER**

The circular says that the Governor has increased the janitors from three to eight. Now, did you ever? We thought that janitors were under civil service and became a part of the State government. The Custodian of the State Office here is the only job work mention, and Senator Hiram W. Johnson made this appointment when he was Governor.

Eight janitors and three lady helpers, etc. We think the committee does not count and here goes. Now, janitors costs are just as good as other folks, often better. Their work is just as honorable as any known to mankind, but since they are under civil service why credit the Governor with appointing them, and then add: "He has always shown a disposition to be of constructive help to the colored race."

One employee—Gov. Stephens' janitor—is an A. B. from a first-rate college; was First Lieutenant overseas; Divisional Machine Gun Instructor, and commanded troops under fire.

No. 3 was a minister of the gospel.

No. 3 was a railway mail clerk and formerly a school-teacher.

No. 4 is a building contractor.

No. 5 is an A. B. and is good in astronomy.

No. 6—but what's the use? They are only janitors. No reason is given why the Governor has not appointed them to a place in the first class, and he has a speech with their training and qualifications. But this is campaign time and Richardson is the candidate upon whom the colored voter is looking right now. It's another case of how he had right whether the candidate for whom one voted won or not. Those who believe 40,000 voters are not given a square deal politically, because when two of them are R. D.'s and one is a minister, go on to say the janitors' civil service list and then are selected when their turn comes, will vote on August 29 for Friend W. Richardson. No mention is made of the women, except the made of three lady helpers and one stenographer. Twenty thousand women voters will be there at this Aug. 29, 1922. They'll vote their protest, and voters are all counted one at a time.

State Treasurer Friend Richardson, Republican candidate for Governor, who is campaigning on an economy platform, is anxious that every good citizen should understand that State taxes are paid by every good citizen.

For instance, every individual in California who uses an electric toaster, fried an egg or any other breakfast item on the gas stove, turned on the light for a shave, used a washing-machine, or traveled a block on an electric or steam railway, helped to pay a state tax.

Mr. Richardson would also like it understood that this morning is like every other morning in the year, so far as State taxes are concerned—everybody pays 'em. Mr. Richardson believes that if every California voter is merely talking to him when he calls on the Governor, he says "the ordinary taxpayer does not pay State taxes," every California voter would rush to the polls and vote for Mr. Richardson, who guarantees to make shaving, cooking an egg for breakfast, reading by electricity or gas, a shave, used a washing-machine, or traveled a block on an electric or steam railway, helped to pay a state tax.

The Moore-for-Senator workers have quit talking anything these days except majorities; from even the most ignorant of the voters come words like "the majority is made of three, ladies and one stenographer. Twenty thousand women voters will be there at this Aug. 29, 1922. They'll vote their protest, and voters are all counted one at a time.

Shurtliff, associate Justice of the State Supreme Court, is being waged by Mrs. W. H. Anderson, president of the State club women and for an executive officer of the State Federation of Women's Clubs.

Mrs. Anderson gives Justice Shurtliff a strong endorsement:

Justice Shurtliff possesses in the highest degree, every qualification of an associate Justice.

As a lawyer he has few peers and no superiors. He is a most cour-

teous gentleman of the very highest ideals and the most sterling integrity, coupled with a judicial temperament and a knowledge of law that eminently fit him for his duties as Justice of our highest appellate court.

Henry S. Gilhuly is a candidate for the Republican ticket for the office of member of the State Board of Equalization, Fourth District, which comprises twenty-four southern counties, extending from the borders of San Francisco. Mr. Gilhuly is a man engaged in the real estate and insurance business in Glendale. He has never been a seeker for public office before but has been active in civic affairs in Glendale, where he resides, being a member of the Glendale Masonic Lodge, Elks and Young Men's Republican League of Los Angeles. He has the endorsement of a number of prominent business men in Southern California.

Charles G. Johnson, candidate for State Treasurer, is in Los Angeles and has opened headquarters at the Olympia Hotel, where he will conduct his activities throughout the month of August. He is campaigning for the Republican nomination at the primaries.

RIVERSIDE, Aug. 20.—The recent exposé of a secret tri-county meeting of machine politicians of the Stephens organization, held in Riverside, with representatives from Orange, Riverside and San Bernardino counties, with the idea of apportioning certain State jobs, but finally leaving Orange county out of it, has resulted in considerable consternation.

The matter was called to the attention of the Governor in his recent visit to Orange county and it is asserted that the Governor is entirely responsible for the secret meeting of the machine politicians of the three counties to discuss the apportioning of State jobs.

The trouble with this new program in the eyes of the Riverside machine politicians is that this railroad commission job was picked out in the recent Riverside conference for Senator Lyman King of Redlands, the author of the bill at the last session of the Legislature.

While the Governor should not be at a loss to be able to hand out plenty of promises of new jobs to the citizens in Orange, Riverside and San Bernardino counties, and although he has already taken care of some of the leading editors of the three counties in one way or another, in order to spike the gun that would otherwise be firing against him, Richardson is guilty of a lack of foresight in his promise to the people.

**BART FOR SUPPORT**

"What right have a handful of wad politicians of these three great counties to promise to the State the end of the day and a conscientious application to do the same for the State?"

**PROMISES NOT KEPT, CHARGE**

Gov. Stephens has failed in every way to carry out his campaign pledges of two years ago as to economic management, and is directly responsible for Southern California's having its largest deficit in the State Legislature.

California leads the world in expenses, but not in the efficient administration of the funds appropriated for her wards. The three-fold increase in the cost of living has been far beyond the standards established by States like Minnesota, Michigan, Wisconsin, New Jersey, Connecticut, Pennsylvania and Massachusetts.

While the Governor should not be at a loss to be able to hand out plenty of promises of new jobs to the citizens in Orange, Riverside and San Bernardino counties, and although he has already taken care of some of the leading editors of the three counties in one way or another, in order to spike the gun that would otherwise be firing against him, Richardson is guilty of a lack of foresight in his promise to the people.

Passes Up Opportunity to Join League  
Nation Fails to Give Thirty Days' Notice  
Fear of Stirring Up French Held Reasons

BY NEWTON C. PARKE (EXCLUSIVE DISPATCH)

NEW YORK, Aug. 20.—Germany has lost her chance to be admitted to the League of Nations at the third session of the League Assembly, which convenes in Geneva early in September.

Unmarked by its adherents in Europe, the German government let August 6 slip by without making formal request that she be given a seat in the councils of the world organization. The League rules of procedure, adopted at the first session in 1920, provide that a nation desiring membership must make formal application at least thirty days before the Assembly meets. She must act herself, no friendly power can present her candidature.

delegation, is credited with upsetting Hungary's hopes. She had been interested in Hungary, but did not know League procedure. She "tipped off" the secretary of or the Rumanian delegates while fox-trotting at the Hotel des Gobelins. She might be the Hungarian goose who cooked her.

The disappointed Hungarian

delegates filed a formal application to be acted upon this year and sent back on the Danube.

Cecil Rhodes, Emperor Charles,

coupled with the fact that Hungary

has been on her good behavior

during the last year, makes it almost

a certainty that she will be admitted.

The Foreign Office, however, is still

overruled by the Foreign Office.

Hungary lost the opportunity

of having her candidacy considered

last year because her Foreign Of-

fice diplomats utterly overlooked the

League rule regarding the filing of applications.

SCRAP BREWING

Germany would have had strong

support had she sought admission

this year. Premier Lloyd George

and Minister of Education Her-

bert Fisher, Britain's most active

spokesman at the league meetings,

had extended her an invitation

to consider her application.

Apparently her application must be

referred to the London delegations

to give aid and comfort to the

London delegations in the row that is

brewing with France over dis-

assembly.

This year's session of the League

will bear close watch

the United States because

that row. At the first session in

1920, organization of the prin-

cipal world powers established

that year was the creation of the

Permanent Court of International

Justice. There was much discus-

sion of disarmament commit-

tees and some extension on the

floor of the League Assembly.

The world, however, was quite

little excitement even before the

Assembly met. Rumania, Jugo-

Slavia, Czechoslovakia, and Po-

land all opposed letting down the

barrier for Hungary on the ground

that was wise, and that Emperor Charles

was engaged in active plotting for

the restoration of the monarchy.

## YALE MAN DEMENTED BY PRISON

American Student, Kept in German Cell Eleven Years, Mental Wreck

[BY CARLIS—EXCLUSIVE DISPATCH.] PARIS, Aug. 20.—John Gurchison, former Yale student, who has been buried from the world for eleven years in German prison at Heidelberg, has arrived in Paris, an absolute human wreck.

The American Society in Paris has placed him in a private nursing home in the suburbs, but he is in such a nervous condition that he attempted suicide twice in a few days. American physicians pronounced him dead, but his invisible memories prevent him from sleeping. He acts like a man with delirious terrors, and his memory is almost gone.

Gurchison was raised in a foundling home. His parents' names and address is not known, but he worked his way through a year at Yale and won a scholarship to Heidelberg. Soon after arriving at Heidelberg he killed a German student in a duel, and was sentenced to five years in prison. Six years were added to his sentence for attempting to escape. Apparently no friends attempted to secure his release.

Mr. Gurchison did not know anything about the World War until released and can scarcely grasp the fact. He has been in solitary confinement for eleven years, but his body is still full of scars inflicted by the warden. His age is given as 29 years. The American Embassy is attempting through the German Embassy to clear up the case.

**SHIPPERS AND GROWERS OF STATE FORM COMMITTEE TO MOVE FRUIT**

[BY A. P. NIGHT WIRE.] SAN FRANCISCO, Aug. 20.—Hugh H. Heck, director of the Department of Agriculture, announced today that a committee of twenty-six shippers and representatives of growers' association which will make an effort to obtain sufficient refrigerator cars for the movement of California's fruit crop.

The committee, Heck said, will work under the general direction of the state fruit commission and devote much of its efforts toward obtaining a prompt return of refrigerator cars from the East. The director said 55,000 cars are needed this year and within the next few weeks, whereas in normal years, the crop required only about 40,000 cars.

That is the compliment paid the Southland last night by D. C. Stearns, Past Department Commander of the Spanish War Veterans of Ohio, who was one of the thirty-two prominent Ohioans on board the "Ohio," Car of the Spanish War Veterans' special which arrived in Los Angeles yesterday afternoon.

The Ohio contingent of the train furnished most of the entertainment for the passengers en route from Chicago, visiting various cities along the way, train meetings and dances. Religious services were conducted on the Ohio car yesterday morning by Mr. Stearns.

Among other prominent persons on the "Buckeye" were Judge Alvert D. Alcott of Cleveland, the new Department Commander for the State; Mrs. Edna Holloway of Akron, Past Department president of the Ohio Auxiliary, and Mrs. Florence L. Clark of Cleveland, Past President-General of the Ohio Ladies Auxiliary, and a candidate for Senior Vice-President-General of the National Auxiliary.

Spanish War Veterans See Town and Seem Pleased by Usual Reception

"Los Angeles boosters don't tell visitors about their lovely city and its environs—they take them out and show them, whether the guests come from Missouri or Ohio. They evidently know they can't do Southern California justice in words so they say it with an automobile tour."

## BUDGET SYSTEM SAVES REVENUE

STATE EXPENSES CUT BY ACTION OF BOARD OF CONTROL

[BY A. P. NIGHT WIRE.] SACRAMENTO, Aug. 20.—A saving of revenue amounting to \$5,456,373 was effected during the last twelve months by the budget system put into effect by the State Board of Control, according to a report on appropriated and departmental revenues submitted today to Gov. Stephens by Clarence E. Jarvis, director of budgets and accounts.

Of this sum, says the report, \$29,000 was saved out of appropriated revenue and \$4,627,873 out of departmental revenue.

The report shows there was a total appropriated revenue for the government of \$10,000,000, \$23,152,01 and a total of \$13,626,494.15 in departmental revenue making a total of \$23,849,561.16.

Expenditures charged against appropriated revenue were \$9,394,445.77 and against departmental revenue were \$4,627,873, making a total expenditure of \$13,626,763.17.

The appropriated and estimated revenues for the biennium were divided equally between the seventy-third and seventy-fourth fiscal years, the report said, and an unappropriated sum of 10 per cent set aside and the remaining 90 per cent divided into four quarters, each department being advised not to exceed the estimates of any quarter.

The report to the Governor indicated expenditures were charged against all departments, boards, commissions, teachers, colleges, special schools and institutions.

Modern Enoch Arden Dies by Own Hand After Killing His Successor

[EXCLUSIVE DISPATCH.] PORTLAND, Mich., Aug. 20.—When Wm. Hughes, aged 43 years, came back from Alaska, his wife had divorced him and had married his brother, David.

The victim's mother is prostrated by his death.

The American Society in Portland has placed him in a private nursing home in the suburbs, but he is in such a nervous condition that he attempted suicide twice in a few days. American physicians pronounced him dead, but his invisible memories prevent him from sleeping. He acts like a man with delirious terrors, and his memory is almost gone.

**REFRIGERATOR CARS ARE BADLY NEEDED**

**SHIPPERS AND GROWERS OF STATE FORM COMMITTEE TO MOVE FRUIT**

[BY A. P. NIGHT WIRE.] SAN FRANCISCO, Aug. 20.—Caesar Marburg, 15-year-old boy of 1326 West Fifth street, Los Angeles, was seriously but not fatally injured late last night when the car in which he was riding on the Crest Road, one-half mile west of Squirrel Inn near hillside skidded into soft dirt and plunged down an embankment of several feet, hitting a tree.

Had it not been for the tree the car would have fallen several hundred feet into a canyon, it is believed.

Jack Hyder, another youth who was with young Marburg at the time of the accident, leaped before the car started its plunge, and escaped uninjured.

Passing motorists picked up the two youths and carried them to the camp of Dr. C. H. Lashlee near Horse Shoe Bend where Marburg was admitted to the Sequoia Hospital, where it was learned he was suffering from severe scalp wounds and possible fracture of the spine at the base of the neck.

**WORK ON BURG TOMB**

[EXCLUSIVE DISPATCH.] ST. LOUIS, Aug. 20.—Work is nearly completed on the mausoleum or chapel in memory of Adolphus Busch, St. Louis brewer, in Bellefontaine Cemetery. The structure is a simple granite vault which will be covered in purity of detail. The cost will be about \$200,000.

## SON OF MILLIONAIRE LUMBERMAN DROWNS

[EXCLUSIVE DISPATCH.] OYSTER BAY (N. Y.) Aug. 20.—Forty hydroplanes and other craft returned tonight from a vain all-day search for the body of Donald M. Phipps, 22 years old, graduate of Yale and son of A. J. Phipps, millionaire lumber merchant of Flora Park, Newark. Young Phipps was swept by a high wave from the bow of a speed motorboat into the water and soon died yesterday and drowned. He was on a boat driven by his friend, William Lyons, of East Hampton.

The victim's mother is prostrated by his death.

Magnus Alexandria Will to Honor Guest at Luncheon

The guest of honor at the Chamber of Commerce luncheon Aug. 10, at the Alexandria Hotel, will be Magnus Alexandria, chairman of the National Industry Conference Board, it was announced yesterday by Chamber of Commerce officials.

For the purpose of gathering data in regard to business, commerce and industry on the Pacific Coast, Mr. Alexandria has been spending some weeks here. His amazingly interesting program is to local business men anticipating the address to be made before Chamber members.

## SMUGGLING OF DOPE ALARMS

(Continued from First Page)

estimated at an average prevailing price for drugs in wholesale quantities.

It is not due to laxity on the part of agents working that this trade has gained such a stronghold here. It is due to an insufficient force and the almost complete absence of those engaged in the business of dope running.

**WOMEN CARRY DRUGS**  
One of the main things needed here, according to authorities, is the addition of an inspector for women who cross back and forth over the line. It is strongly suggested that a large per cent of the smuggling into the United States is carried out by women.

Cocaine, morphine, heroin and opium with a sprinkling of amphetamine, are the chief drugs com-

ing the traffic carried on by the secret forces and backwash of the underworld.

Petty larceny is one of the main troubles that border police have to contend with as a result of the "hoochies" endeavoring to get hold of their favorite drink. Frequently they are taken with marks all over their body caused by the use of safety pins, glass, sharp nails and regular hypodermic needles. The ordinary paraphernalia carried by the lower order of drug addicts is a safety pin with which they scratch themselves, a bent handle spoon in which the dope is cooked or water sterilized and in which the dope is afterwards dissolved and a medicine dropper with which the dope is introduced into the blood after the scratch is made with the pin. Some carry the regular hypodermic needle, but all carry the spoon unsterilized. "Hoochies" in which case the dope is taken the same as snuff through the nose.

The ingenuity and cunning em-

ployed by those engaged in the traffic is beyond description. Often times a rumble will happen without a tear apart any automobile or the crowd of people or to intercept the car.

They are adept in the use of his hands as a skillful manipulator of cards that he will get it by without detection. Often the dope is concealed inside the body and avoided detection there.

Many times a passerby wishing to make frequent trips back and forth without the drug in order to confuse the agent watching him. Then, some time during one of the trips he will either bring it himself or send it with some one else in front of him in his hand.

However, these little deals are beside the point in the main quest of the narcotic agents. The big dealer is the man to be watched for, but he resorts often to entirely different tactics. He brings large consignments across the line in plain sight but concealed necessarily for that purpose and sometimes the very quantity of the thing. Customs officers know that many times they have been leading

directly at large quantities of dope without realizing it. It is impossible to tell anything as a rule, when a large consignment is caught on routes across the line. The few skillful agents are the work of deodor. Where one such is made hundreds escape detection.

The drug is brought by shipload to Mazatlan, on the lower peninsula of Lower California, and shipped to Mexico City. There they occur what is known as a panic. This happens when buyers in the United States take up all the drug for sale in Mexico and the dealers there are unable to get it. Then smuggling starts across the border into Mazatlan and the price naturally goes up. During the month of July one such panic occurred.

**DOSELY LAVALIERE STOLEN**  
A diamond lavaliere valued at \$1000 was stolen from Mrs. A. Brock, 1814 Hollywood Boulevard, when burglars entered the home while the family were taking dinner.

During the day the family were away, but the burglar had been in the house and had taken the diamond lavaliere.

## MRS. SOLOMON SAYS--

Being the Confessions of the Seven-Hundredth Wife

BY HELEN ROWLAND

My daughter, why dost thou despise a love-poacher? For, I say unto thee, she is not a pitfall, but a blessing in disguise! Let foolish wives and simple damsels tremble at sight of her, but the wise woman saith in her heart:

"I fear not the poacher, for she is my pacemaker!"

"Behold, doth she smile upon my beloved?"

"Then shall I smile upon him twice as dulcely and twice as often."

"Doth she feed him with batter and dazzle him with dove's eyes and glances of admiration?"

"Then shall I cease from nagging him, and coo unto him with words of honey and a voice of silver."

"Doth she perfume her tresses with musk and patchouli and flour d'amer?"

"Then shall I likewise wash the tumes of the kitchen from mine hair and anoint me with spikenard and myrrh and imported extracts."

"Doth she whiten her hands and reden her nails with henna, that they may be kissable? Then shall I batter, cracked and chipped, but like quick-lunch chinaware, it will not break."

"If there are as many blond angels in paradise as the Christmas cards would indicate, how is a normal girl going to get any soul satisfaction out of the thought of going there?"

"In the school of love a man usually gets his kindergarten training from a widow and receives his Ph.D. from a napper."

"The first idea of selecting your mate would be perfectly wonderful if it weren't for the fact that drawing a husband, like drawing a royal flush, is nearly a matter of chance."

"The modern heroine no longer braves the big, wicked world in order to lift the mortgage of the old farm—but in order to raise the rent for the new four-room-and-a-bath apartment."

"Every time a jealous woman gives a man a piece of her mind, the other woman gets a piece of his heart."

"The professor who has discovered the blue guinea pig needn't fancy that any one jolly good fellow is going to permit it to take the place of the dear, old, familiar pink rabbit in his affections."

"Being washed in the ocean usually being referred to a pedestal and left there to hold your halo on straight until he gets ready to come home evenings."

"So dallying is the changes of the seasons that there are already beginning to sigh for the sweet old-fashioned vamps of 1916."

"Letters to THE TIMES.

REFLECTIONS ON BACHELORS

Bachelors are the Bolsheviks of love. What they demand is the maximum return with the minimum of effort—and no responsibility.

A man does not remain a bachelor because he lacks a heart, but because he has much heart, that he considers it a pity to waste it all on one woman.

A bachelor's idea of "freedom" is to keep himself so tangled up with a lot of girls that there will be no room for him to move, irretrievably tied up to any one of them. He is so afraid of risking into matrimony, that he keeps a highway with ashes.

You may break a bachelor's heart in twenty-seven different places, without even making a dent in his determination not to marry. An expert can make a man weep love with his hand on his wrist, his eye on the watch, and his mind on the taximeter.

So long as dozens of girls are willing to make a bachelor's life a misery, he'll never naturally he'll feel in any vital hurry to exchange it for a lullaby. In these days of bachelor apartments, hole-in-the-wall public saloons and one-woman joints, one can make love with his hand on his wrist, his eye on the watch, and his mind on the taximeter.

The soliloquies care with which a bachelor chaperones himself would inspire a French dowager with envy and admiration. Outfits of a diplomatic complexion, with no asterisks and friezes, him to bear himself telling a woman that he loves her.

More About Prohibition

LOS ANGELES, Aug. 20.—[To the Editor of The Times:] By chance I picked up a back copy of The Times that contained an account of a man who was sentenced to jail for unmercifully whipping his stepbrother. We are glad to find that the police are sometimes protected in California.

There was a man in Colorado Springs who whipped and choked a 2-year-old baby to death.

His father, the child was in an instant, from shell shock in the World War, and the mother was compelled to work to earn a living for herself and child.

She was paying this brute and care of her baby, while she was teaching school in Wyoming.

The crime was committed in November and he was never brought to trial until the following May.

His plea was that the punishment wasn't too severe, but the baby wasn't a normal child and, therefore, was unable to stand it.

The jury found him guilty.

Judge Conforth gave him ten days in which to file a motion for a new trial and said he would hear the arguments on the motion at the end of the month.

Of course, he was given a new trial and no date set. The case was still pending the last we knew.

It was another case of a man with a gun, and the courts had to stall it off awhile awaiting the sentiment of the public.

## THE GUMPS—FROM FAR AWAY AUSTRALIA

THE GUMPS RECEIVE A LETTER FROM UNCLE BIM IN FAR AWAY AUSTRALIA

AN DEAR MRS AND MISTER: ARRIVED HOME AFTER A STORMY VOAGE - NOT ONLY DID I FEEL BAD MENTALLY AFTER ALL THAT HAPPENED IN THE STORM BUT I WAS SO PHYSICALLY WELL EITHER - IT WAS LIKE HAVING THE TRIP WOULD LAST FOR EVER! I HAVE NOT BEEN AT ALL WELL SINCE MY RETURN BUT HAVE BEEN CONFUSED TO MY BED ALMOST ALL THE TIME -

IT'S NOTHING VERY SERIOUS BUT IF I DON'T IMPROVE SOON I MAY CABLE EXPENSES AND HAVE YOU COME OVER AND VISIT WITH ME A WHILE - I HAVE A BUILDING HERE WHICH I HAVE JUST LEASED FOR 99 YEARS - THE INCOME IS BETWEEN TWO AND THREE THOUSAND POUNDS ANNUALLY - I HAVE SIGNED THIS OVER TO MY LITTLE CHESTER (CAR GUARDIAN) - IN REGULAR MONTHLY INSTALMENTS TO BE USED FOR CHESTER'S EDUCATION -

YOU WILL HEAR FROM MY COUNSELORS IN A FEW DAYS - NOW DON'T WORRY ABOUT ME MY DEAR RELATIVES -

BETWEEN TWO AND THREE THOUSAND POUNDS - THAT'S OVER \$10,000.00 A YEAR - AND FOR 99 YEARS - I WONDER IF WE EXPECTED ME TO LOOK AFTER IT ALL THAT TIME - WELL, THAT KID'S IN CLOVER FOR AT LEAST 99 YEARS - AFTER THAT HE MAY HAVE TO MAKE HIS OWN LIVING -

I WONDER IF HE IS VERY ILL - IF WE HAVE TO DO ANYTHING HE WILL HAVE TO GET A LOT OF NEW CLOTHES - I HAVEN'T A THING TO WEAR -

YES SIR, I'M DOWN AND OUT NOW ALL RIGHT, BUT ONCE WAS QUITE PROSPEROUS - I WELL REMEMBER THE TIME WHEN I HAD A CARRIAGE ALL TO MYSELF AND USED TO BE RIDING AROUND IN IT ALL DAY LONG -

## KERN DRILLING TAKES SLUMP

**Only Three Wells Spudded in Last Week**

**Tests for Water Shut-off Total Fight**

**Wildcat Drilling Around Delano Progresses**

**[EXCLUSIVE DISPATCH]**

**BAKERSFIELD, Aug. 18.—Drilling activities in the oil fields of Kern county took a decided slump during the past week and only three new wells were spudded in. Deepening jobs numbered only two and tests for water shut-off totaled eight.**

**TWO NEW WELLS WERE STARTED IN THE KERN RIVER DISTRICT, ONE BY E. A. CLAMPITT ON SECTION 26, 23-27 AND ANOTHER BY A. W. HUNT ON SECTION 2, 23-28.**

**REDRILLING STARTED**

**The Pan American Oil Company has started to re-drill its No. 8-A well in the Kern River Oil Field.**

**THE CALIFORNIA PETROLEUM COMPANY HAS ABANDONED ITS NO. 12 WELL ON SECTION 24, 12-24.**

**Two abandonments for Kern county were reported during the week.**

**One is the Buttonwillow Gas and Petroleum Company's well on section 17, 23-24, near Buttonwillow.**

**This company has had water trouble with the well every since it was started.**

**Gas pressure was encountered at various times that a big well had been brought in this virgin territory.**

**Indifferent environment of the well improves these.**

**THE CALIFORNIA PETROLEUM COMPANY HAS ABANDONED ITS NO. 1 WELL IN SECTION 18, 23-28 IN THE KERN RIVER FIELD.**

**WORK TO BEGIN**

**Work is soon to be started on a well for the Taft-Midway Oil Company on section 22, 23-24, a mile west of Taft in the Midway field.**

**The company was organized some time ago, but due to the oil strike and other drawbacks work was delayed.**

**A. E. Wright, head of the company, says that the first well will be completed in early completion despite the price of oil.**

**THE WILDCAT WELL BEING DRILLED NEAR DELANO ON THE PROPERTY OF MRS. HODGMAN IS WELL UNDER WAY WITH THREE SHIFTS OF MEN WORKING EIGHT HOURS EACH.**

**The well is 14 inches and 12½ inch casing is being used. Oil is expected to be encountered within 1000 feet.**

**THE DEBRIS OF THE WILDCAT WELL LOCATED BY HILMAR WAS DESTROYED BY FIRE ONE DAY LAST WEEK, AND WORK HAS BEEN TEMPORARILY SUSPENDED PENDING THE BUILDING OF A NEW DERRICK.**

**OLD DESERT MINE TO BE DEVELOPED**

**CUNNINGHAM PASS SHEFT BONDED TO ASSOCIATION**

**HEADED BY UTAH MAN**

**[SPECIAL CORRESPONDENCE]**

**WENDEN (Ariz.) Aug. 13.—The well-known desert mine in Cunningham Pass, twelve miles north of Wenden, has been bonded by the Consolidated Mine Syndicate to an association headed by Charles Moore, a Park City (Utah) capitalist, with whom is associated E. L. Moore, an oil operator of Medill, Okla. Jess T. Boyd of Aspen, Colo., has been placed in charge of development work, which, under the option, must be prosecuted with diligence, with addition to a reduction plant in the near future.**

**THE SELLING CORPORATION WAS ORGANIZED SEVERAL YEARS AGO IN LOS ANGELES BY DICK WICK HALL, SON OF GLORY HOLE FAME, SUCCESSFULLY CONDUCTING THE OPERATION IN 1916, WHICH SUNK A 325-foot incline shaft. The Los Angeles corporation, by open cuts, demonstrated the existence of a vein of gold in the first few feet, ranging from 2 to 6 cent copper, with gold values above \$5 a ton. Already, under the Moore administration, a drift from the bottom of the old shaft has cut five feet of quartzite, with 20 per cent copper and \$15 gold, with narrow streaks of very rich chalcopyrite. A vein has been started on this vein and a 150-foot level has been now put in place for compression needs. There is to be drifting at depth under the main cropping to which about 100 feet of additional crosscutting is to be made. There is local expectation that another large copper camp soon will be added to the State's development.**

*the inability to replenish supplies of raw materials.*

*The uncertainty of the political situation at home and abroad, the fear of French moves against private enterprises, the entire curtailment of credit which has been greatly aggravated by the gigantic rise in prices, all are rapidly polarizing the energies of German enterprise and threaten to bring the feverish industrial activity of Germany of the last two years to a standstill. Taken together with the will buying sentiment of the last few weeks by Germans and foreigners Germany may soon find her plants, warehouses and stores swept clean of all goods with no means in sight of replenishing stocks.*

*An assessment has just been made of a wage increase of 25 per cent for government employees which will probably serve as a basis for general wage increases.*

**MORE PAPER OUT**

*With national and State budgets badly dislocated by the unprecedented volume of imports, there comes the imposition of higher freight rates, fanning still further the flames of devaluation in exchange and necessitating huge issues of paper money, thus widening the vicious circle of the financial situation.*

*Above all looms the dark vision of wholesale unemployment with millions of working people facing starvation with no coal or food, high rents and increased taxation.*

## London keeps eye on Europe

*Business Situation Remains Dependent on Politics*

*Toboggan of Mark Fails to Excite Financiers*

*England Benefits by Coal Shipments to States*

**[EXCLUSIVE DISPATCH]**

**LONDON, Aug. 20.—**The attention of business circles remains centered on continental political developments. Although there is an impression that another reparations conference will be held in November there are many British financiers who believe that by that time the mark will have fallen so far that it will be impossible to make Germany's currency on a sound basis without demonetization. However, the slump of marks to \$600 to the pound and the return of Australian kronen to \$40.00 to the pound does not impress London financiers as sufficiently serious to warrant drastic measures immediately.

**FRANC, LIRA LOWER**

*There is a considerable belief that the international bankers committee should be recalled to examine the European debt problem as a whole in order to meet the demands of each nation to meet its own labor disputes.*

*The franc and lira, during the week, depreciated sympathetically with the mark, both now being near the lowest levels reached in September.*

*On the other hand, sterling exchange has gained slightly on New York, the reason generally assigned, being the American industrial troubles. The strike situation in the United States had an effect, not only in increasing American coal orders, but also in stimulating a demand for pig iron from the same sources.*

*During the past few weeks arrangements have been made for confidential shipments of pig iron from the Northeast coast.*

**MIXED CARGOES ARRANGED**

*Some mixed cargoes of this commodity and coke have been arranged which, in addition to their obvious combined uses, have been providing combinations of heavy and light cargoes.*

*Following the big withdrawal from the banks for investment purposes during the spring and early summer the London money markets are now experiencing a period of tightness. The bank rate remains at 3 per cent and the discount rate charged also for day to day loans, although old loans continue at 1½ per cent. Both the money market and the unsettled exchanges have militated against any recovery.*

*Experience during the series of chaotic episodes in the armaments industry has again raised the stock market's alarm. Nobody has forgotten the extreme pessimism into which private ideas of Europe's political and social conditions were plunged in the first year after the war.*

**MARKE WAS RIGHT**

*At this time, last summer, the incoming financial collapse over the stronger European States was the common talk of Wall street, but the stock market advanced and the collapse did not occur. At the present moment, notwithstanding the continuing effect of the discussions over German reparations, the franc is selling on the foreign exchange market 2 per cent above the price of a year ago, the Italian lire 1½ per cent, and the German 3 per cent.*

*It would be foolish to press this interpretation, however, on the financial market too far. Their action must often be judged from observation during a considerable stretch of time. Other influences than industrial and political movements on the economic front are very strong.*

*September closed Saturday at 59 1-8 cents, up 5-8; December, 53 1-2 to 54 1-2 cents, up 1½; May, 57 1-2 cents, up 1½ for the week. Should wheat prices decline, it would be hard to pull corn very much.*

*The two continental rates have lately been higher still, and the recovery has happened, while the German mark is still falling very low.*

*Otherwise there is little in the market except as a spreading proposition. There was evidence at the close of September and December that the market had recovered.*

*September closed Saturday at 59 1-2 cents, up 5-8; December, 53 1-2 to 54 1-2 cents, up 1½; May, 57 1-2 cents, up 1½ for the week. Should wheat prices decline, it would be hard to pull corn very much.*
